A BIBLIOGRAPHY OF THE GEOLOGY RELATING TO THE
BARBERTON MOUNTAIN LAND AND SURROUNDING GRANITIC TERRANE

PREFACE

The compilation of this bibliography evolved as a result of the continuing researches being undertaken in the Barberton Mountain Land and in the surrounding granite-greenstone terrane of the eastern Transvaal and Swaziland. The bibliography attempts to provide a comprehensive list of references pertaining to aspects of the geology, mineral deposits and mining in the region. Although most of the references relate to the geology of the predominantly Archaean terrane exposed to the east of the Transvaal Drakensberg escarpment, the work also includes in its scope some references to historical aspects of the area as well as to reports of evidence pertaining to the origin and evolution of primitive life forms.

Included also are some references not directly relating to the Barberton Mountain Land or its surroundings, but which merely refer to the area, for comparative reasons. This trend is particularly evident in the field of geochemistry where chemical analyses of Archaean rocks from as far afield as the Canadian Shield, Western Australia, India, Rhodesia, and West Greenland, to name but a few, are compared with rocks from the Barberton and Swaziland areas.

The chief source of references, from which the earlier contributions in this bibliography were obtained, is the series of published bibliographies of South African geology issued by the Geological Survey of South Africa covering the years up to the end of 1935. References subsequent to this period have been obtained from a great variety of sources including mining company files, the files and annual reports of the Geological Survey of Swaziland, various theses pertaining to the area and, from 1957 to 1973 inclusive, from published bibliographies and subject indices of the Geological Survey of South Africa. In addition the compiler has, since becoming involved in the geology of the Barberton Mountain Land in 1962, attempted to keep track of the research and other activities in the region and has added to the bibliography all those references which followed the early activities of the Economic Geology Research Unit in the Barberton region.

The bibliography is divided into three parts. In the first, all publications are listed alphabetically according to author, while in the second, they are rearranged into chronological order. In the third section, a list of researchers and provisional titles of work currently in progress in the region in question, is provided.

Every effort has been made to ensure the accuracy of the entries appearing herein, but errors and omissions are bound to have occurred. Advice of such would be greatly appreciated by the compiler.

C. LIST OF RESEARCHERS AND PROVISIONAL TITLES OF WORK CURRENTLY
IN PROGRESS AND RELATING TO THE BARBERTON GRANITE-GREENSTONE TERRANE

- ANDERSEN, N.J. 1977-78. The geology of portion of the northeastern segment of the Barberton greenstone belt. M.Sc. thesis, Univ. Witwatersrand, Johannesburg. (in preparation).
- ANHAEUSSER, C.R. 1976. A review of the geology of the Archaean granite-greenstone terrane on the Kaapvaal craton, South Africa. Inform. Circ. econ. Geol. Res. Unit, Univ. Witwatersrand, Johannesburg. (in preparation).
- ANHAEUSSER, C.R. 1976. An occurrence of marundite (corundum-margarite rock) in the granite-greenstone terrane north of Lochiel, Barberton Mountain Land. Inform. Circ. econ. Geol. Res. Unit, Univ. Witwatersrand, Johannesburg. (in preparation).
- ANHAEUSSER, C.R. 1976. An occurrence of rodingite in the Stolzburg ultramafic complex of Archaean age, Barberton Mountain Land. Inform. Circ. econ. Geol. Res. Unit, Univ. Witwatersrand, Johannesburg. (in preparation).
- ANHAEUSSER, C.R. 1976. Geological and geochemical investigations of the Roodekrans ultramafic complex and surrounding Archaean volcanic rocks, Krugersdorp District. Inform. Circ. econ. Geol. Res. Unit, Univ. Witwatersrand, Johannesburg. (in preparation).
- ANHAEUSSER, C.R. 1976. The geology and geochemistry of the Stolzburg layered ultramafic complex, Barberton Mountain Land, South Africa. Inform. Circ. econ. Geol. Res. Unit, Univ. Witwatersrand, Johannesburg. (in preparation).
- ANHAEUSSER, C.R. 1976. The geology of the granite-greenstone terrane south of the Bosmanskop syenite pluton, Barberton Mountain Land. Inform. Circ. econ. Geol. Res. Unit, Univ. Witwatersrand, Johannesburg. (in preparation).
- ANHAEUSSER, C.R. 1976. The geology of the Nelshoogte Schist Belt, Barberton Mountain Land. Inform. Circ. econ. Geol. Res. Unit, Univ. Witwatersrand, Johannesburg. (in preparation).
- ANHAEUSSER, C.R. 1976-77. The geology and geochemistry of the granite-greenstone terrane south of the Barberton Mountain Land. Inform. Circ. econ. Geol. Res. Unit, Univ. Witwatersrand, Johannesburg. (in preparation).
- ANHAEUSSER, C.R. 1976-77. The geology and geochemistry of the Muldersdrif ultramafic complex, Krugersdorp District. Inform. Circ. econ. Geol. Res. Unit, Univ. Witwatersrand, Johannesburg. (in preparation).
- BARTON, E. 1977. Rb-Sr geochronological studies of various granite types in the Nelspruit-Bushbuckridge area, eastern Transvaal. (in preparation).
- CONDIE, K. 1977. Major, trace and rare earth element geochemistry of selected units in the Hoogogenoeg Formation, Onverwacht Group, Barberton Mountain Land. (in preparation).
- ERIKSSON, K.A. 1977. A palaeoenvironmental analysis of the Archaean Moodies Group, Barberton Mountain Land, South Africa. Unpub. Ph.D. thesis, Univ. Witwatersrand, Johannesburg. (in preparation).
- ERIKSSON, K.A. 1977. Tidal deposits from the Archaean Moodies Group, Barberton Mountain Land, South Africa. Spec. Issue, Sed. Geol. (in preparation).
- ERLANK, A.J. 1977. Geochemical studies of Archaean volcanic rocks from the Onverwacht Group, Barberton Mountain Land. Geodynamics Project, Univ. Cape Town. (in preparation).
- GEOLOGICAL SURVEY. 1976. The mineral resources of the Republic of South Africa. Geol. Surv. S. Afr. (5th ed.). (in press).
- GLIKSON, A.Y. and TAYLOR, S.R. 1976. Trace and rare earth element geochemistry of Archaean acid igneous series, Barberton Mountain Land, Transvaal. Geochim. et Cosmochim. Acta., (in press).
- HEINRICH, T. 1976-77. The geology of the area between Geluk and Skokohla, Barberton Mountain Land. Provisional geological map prepared in 1969/1970 (1:10 000 scale). Unpub. thesis, West Germany.
- KABLE, E.J.D. 1976-77. Geochemical studies (involving neutron activation analyses) of various granitic, sedimentary, and volcanic rocks from the Barberton Mountain Land. Nuclear Physics Res. Unit., Univ. Witwatersrand, Johannesburg. (in preparation).

- MUIR, M.D., GRANT, P.R., BLISS, G.M., DIVER, W.L. and HALL, D.O. 1977.
